Assessment of International Qualifications

Assessment of International Qualifications

IMPORTANT: It is **essential** that Tasmanian teachers are qualified to teach.

It is a requirement that you hold a teaching qualification to be eligible for teacher registration in Tasmania and other states/ territories of Australia. If you do not hold a completed teaching qualification/program (see page four for the essential elements of a teaching qualification) please contact the TRB Office for advice before requesting this assessment of your qualifications. trb.admin@trb.tas.gov.au

The Teachers Registration Board of Tasmania will only undertake this assessment for Tasmanian residents and **non-Tasmanian residents** who are seeking (or have a bona fide intention of seeking) employment as a teacher in a Tasmanian school, college or TasTAFE.

If you are applying for **Skilled Migration Visa**, please wait until your **Skills Assessment Certificate** is issued and it has been deemed that you are suitable for a nominated occupation as a Teacher.

If you have a recent **Skills Assessment Certificate from AITSL** that indicates you are suitable for a nominated occupation as a Teacher, please contact the Board by email trb.admin@trb.tas.gov.au **before** proceeding with the TRB assessment.

About the assessment of your International Qualifications

The *Teachers Registration Act 2000*, Section 39 -Regulations (2) (c) provide for the Teachers Registration Board of Tasmania (Board) to undertake a formal assessment of an individual's qualifications prior to applying for Tasmanian teacher registration. We assess your qualifications for comparability to Australian qualification levels, against the national requirements for teacher education, Board policy and for alignment with the Australian Curriculum.

As part of this formal assessment we can also ascertain if you meet the Board's English language proficiency requirements. You will be formally notified in writing by the Board of the outcome of the assessment. If you meet the Board's qualification requirements you can then apply for Tasmanian registration in your TRB Online account.

For your consideration: qualification requirements are only one specific component of a determination of eligibility for Tasmanian registration, other criteria as stated in Part 3 Section 13 (2), (3) and (3A) of *Teachers Registration Act 2000* are:

- (b) the applicant is of good character;
- (c) the applicant is fit to be a teacher;
- (ca) the applicant is registered under the *Registration to Work with Vulnerable People Act 2013* in respect of a regulated activity, within the meaning of that Act, that primarily relates to children;
- (d) the applicant, in the opinion of the Board, is sufficiently proficient in the English language.

Timeframes

Assessments generally take 6 weeks from the Board receiving the reconciled payment and all the required documentary evidence (certified to the standard required by the Board), including the completed self-assessment.

The Board has a limited capacity to assess international qualifications and related documents. We often need to contact regulatory authorities in other jurisdictions to tap into expertise which can create significant delays in processing assessments. It is not unusual for some assessments to take up to eight to ten weeks to process.

You should **only submit your request for an international assessment** when you have compiled **all** the required documentation and completed and included the self-assessment.

Note: Any requests for international assessment where either documentation is outstanding or a payment is not received will be cancelled after four months. The assessment fee is non-refundable.

Check you meet the qualification criteria for teacher registration in Tasmania.

To be eligible you must be able to state the following (all four points):

I hold a teaching qualification

A teaching qualification (**initial teacher education program**):

- prepares students to be teachers;
- contains general education studies;
- contains discipline-specific curriculum and pedagogical studies, and;
- includes professional experiences in a school setting.

I hold a conferred degree (or degrees) awarded by a higher education institution(s) that equates to four years (full time equivalent) of tertiary study.

My pattern of tertiary study aligns with one of the Board requirements (a, b, c or d) listed below:

The Board may recognise the following higher education qualifications (a degree awarded by a higher education institution) for teacher registration:

- (a) other national and international four-year undergraduate initial teacher education programs assessed as comparable to those currently approved by the Board;
- (b) other national and international two-year graduate entry or postgraduate initial teacher education programs assessed as comparable to that currently approved by the Board, combined with the equivalent of a suitable 3 year undergraduate degree (minimum);
- (c) other national and international one-year graduate entry or postgraduate initial teacher education programs assessed as comparable to those currently approved by other Australian Regulatory Authorities or AITSL combined with the equivalent of a suitable 3 year undergraduate degree (minimum);
- (d) other national and international programs of teacher education, as the Board may determine in a particular case, where the applicant has tertiary qualifications that, when combined with the teacher education programs are assessed as being equivalent to a 4 year degree (minimum).

The professional experience component of my initial teacher education program is sufficient and evidenced (see point 5 on the checklist for the required documentary evidence).

The professional experience components of an initial teacher education program must consist of supervised and assessed teaching practice undertaken over a substantial and sustained period and in a recognised school setting. The professional experiences are as diverse as practicable and provide opportunities for pre-service teachers to observe and participate purposefully in a school/site as early as practicable in a program.

The initial teacher education program (above) should contain:

- (a) no fewer than 80 days in four year undergraduate and double-degree teacher education programs.
- (b) no fewer than 60 days in two year graduate entry or postgraduate initial teacher education programs.
- (c) no fewer than 45 days in one year graduate entry or postgraduate initial teacher education programs.
