

Progressing from Provisional to Full Registration

As a qualified teacher you have already met the Graduate Standards, and now need to demonstrate your professional growth and achievement of the Proficient stage Standards using evidence of your day-to-day classroom practice and teacher professionalism.

You must also be recommended by the principal for full registration following this presentation of professional evidence

There are many places to get help with the process including your mentor, your workplace / assessment panel, your peers, and the TRB Tasmania.
